

SUFYAN KHALID

Software Engineer | AI & Automation Developer | Full Stack Developer

Faisalabad, Pakistan | +92 323 1936762 | sufyankhalid680@gmail.com

Portfolio: sufyankhalidportfolio.netlify.app | GitHub: github.com/Miansufyan6 | LinkedIn: linkedin.com/in/muhammad-sufyan-khalid-pervaiz-1b2159418

PROFESSIONAL SUMMARY

Software Engineering graduate specialising in Artificial Intelligence, AI agents, and workflow automation, with hands-on project experience in full stack and front-end web development. Proficient in JavaScript, Python, React.js, and SQL, with practical exposure to Generative AI, LLM concepts, prompt engineering, and n8n automation. Independently designed and built multi-step AI automation workflows and AI-powered application concepts. Seeking an entry-level or internship role with an international technology team.

KEY COMPETENCIES

Artificial Intelligence · Generative AI · AI Agents · AI Automation · Prompt Engineering · LLM Concepts · AI API Integration · Full Stack Web Development · Front-End Development · Software & System Design · Data Entry & Record Management · Business Process Automation

TECHNICAL SKILLS

Languages: JavaScript, Python, Java, C++, SQL

Web: HTML5, CSS3, React.js, Bootstrap, Node.js, Responsive Design

AI & Automation: Generative AI, AI Agents, LLM Concepts, Prompt Engineering, AI APIs, n8n, ANN

Data & Tools: MySQL, SQL, Git, GitHub, VS Code, Docker, Netlify, Linux, Data Entry & Record Management

PROFESSIONAL EXPERIENCE

Independent Software & AI Developer | Self-Directed Projects | 2025 – Present

- Design and build AI-powered applications and multi-step automation workflows using n8n, AI APIs, and LLMs.
- Develop AI agent workflows for research, content generation, scripting, and automated content pipelines.

Founder Vision — TechCraft Solutions | Independent Initiative | Jan 2026 – Present

- Developing the technical foundation and roadmap for a planned technology venture focused on AI, automation, and web development (early-stage concept, not yet operating).

Software Engineering Project Developer | Academic & Personal Projects | 2022 – 2026

- Built software and responsive web applications applying system design, implementation, testing, and documentation, using Git and GitHub for version control.

KEY PROJECTS

CodeBot — AI-Powered Creativity & Productivity Platform | Final Year Project | 2025 – 2026

- Designed system architecture, implemented core functionality, and performed testing for an AI-powered productivity assistant, with full software engineering documentation.

AI-Powered Content Automation Agent | Independent Project | 2026

- Built an end-to-end AI automation pipeline (research → topic scoring → script/caption generation → publishing) using n8n and AI APIs, with scheduled execution and duplicate-topic checking.

Responsive Portfolio Website & Scientific Calculator | Personal Projects

- Developed and deployed responsive web applications (HTML5, CSS3, JavaScript) with Git/GitHub version control and Netlify deployment.

EDUCATION

BS Software Engineering | Riphah International University | 2022 – 2026

CGPA: 3.1 / 4.0

FSc Pre-Engineering | Qayadat College Thingi | 2019 – 2021

Marks: 961 / 1100

CERTIFICATIONS & TRAINING

Cisco Networking Academy — CPA (C++ Programming Fundamentals), NDG Linux, IT Essentials, Networking Essentials, CCNA Training (course completed, not certified)

SKILLS & LANGUAGES

Problem Solving — Excellent · Communication — Strong · Teamwork — Strong · Adaptability — Strong · Research · Technical Documentation

Languages: English (Professional Working Proficiency) · Urdu (Native) · Punjabi (Fluent)
